

Suriya Sekar

JAVA FULL STACK WEB DEVELOPER

Cherambadi, The Nilgiris, Tamil Nadu, India | +91 8015863196 |
sekarinsuriya001@gmail.com | [LinkedIn](#) | [GitHub](#)

Professional Summary

Results-driven Java Full Stack Web Developer with hands-on experience in designing and developing scalable web applications using Java, Spring Boot, React.js, MongoDB, and PostgreSQL. Proven ability to build responsive UIs, develop RESTful APIs, and implement secure backend logic. Adept in Agile development, version control, and cross-functional collaboration. Passionate about clean code, continuous learning, and building robust solutions.

Technical Skills

- Languages: Java, JavaScript
- Frontend: HTML, CSS, React.js, Bootstrap, Tailwind
- Backend: Spring Boot, Spring MVC, Spring Security, REST API, Maven
- Database: MySQL, MongoDB, PostgreSQL
- Tools and Platforms: Git, GitHub, IntelliJ IDEA, Eclipse, VS Code, Postman
- Others: JUnit, Mockito, DSA with Java, Agile Methodology, JSON, CRUD Operations

Experience

Java Full Stack Web Developer Intern | Guvi HCL

Dec 2024 – Mar 2025

- Created and deployed modular features in full-stack projects using Java, Spring Boot, React.js, and PostgreSQL.
- Engineered secure login flows and role-based access controls using Spring Security.
- Collaborated with cross-functional teams to test and integrate REST APIs into user interfaces.
- Demonstrated rapid upskilling by mastering version control (Git), database design, and modern deployment practices.

Customer Service Associate | PVR INOX Cinemas

Mar 2024 – Sep 2024

- Delivered exceptional customer support in a high-traffic environment, boosting satisfaction scores by streamlining operations.
- Handled real-time problem-solving and escalations, strengthening analytical thinking and adaptability under pressure.
- Collaborated with diverse teams to coordinate service delivery, showcasing effective communication and teamwork skills.
- Maintained accuracy in ticketing and digital systems, developing attention to detail and process-oriented habits transferable to software development.

Projects

Online Bus Ticket Reservation System | [GitHub](#)

- Designed an admin-user portal using Spring Boot, MongoDB, Tailwind CSS and Thyme leaf.
- Enabled seat booking, user-friendly and route management.

Online Patient, Medication and Appointment System | [GitHub](#)

- Created a healthcare system using Spring Boot, PostgreSQL, Spring Data JPA and Thyme leaf.
- Implemented role-based access and CRUD operations for appointments.

Employee Management System | [GitHub](#)

- Developed a full-stack CRUD application using Spring Boot (Backend), PostgreSQL (Database) and React.js (Frontend).
- Included RESTful API integration and user role management.

Education
